DEVELOPER BENEFITS.

- Give your clients the total business solution they are looking for. Your industry specific software combined with full accounting integration.
- Differentiate your product in the market place.
- By outsourcing the function to OzBiz you are saving your own internal resources, and keeping the accounting integration at arms length from your core functionality.
- Don't tie up your support staff trying to handle accounting issues.
- No cost to you. OzBiz absorb the initial development costs. You will need to pass the data to OzBiz in the manner agreed to after detailed discussion.
- Many developers OzBiz are working with use this a profit generator.

OZBIZ SOLUTIONS PTY LTD.

OzBiz specialises in providing accounting integration capabilities to other software developers. It has been in business since 2002 and started as a business partnership. Growth was substantial and the business became a Pty Ltd Company in 2006.

The company operates in a global market place and has clients in Australia, New Zealand, Fiji, United States, United Kingdom. It is a registered developer with MYOB, Reckon (QuickBooks Australia), Intuit (QuickBooks US), and is a global developer with SAGE UK.

There are many hundreds of satisfied clients. The company is working with approximately 12 leading software developers who have a combined user base exceeding 30,000.
