Split Payments between Dr's and the Practice.

OzBiz Ezylink® Payment Calculator is available as a separate programme for those not wanting to integrate with MYOB. It automates this process in just a few seconds/minutes (depending on the size of your practice). It produces an Excel spreadsheet with all the information by user and a master sheet for the practice. Payments for large practices (20 Doctors) for a fortnight can be done in as little as 90 seconds. Payments for a 5 Doctor Practice can be done in as little as 30 seconds! The excel spreadsheet has a worksheet for each user and a master sheet for the practice. Each line is colour-coded for easy identification.

- ✓ 1 Button press and it's done.
- ✓ Save hours of time and effort.
- ✓ No manual entry. The data is drawn directly from BP.
- ✓ Pay on Invoices, or Receipts.
- ✓ Handles Exception items.
- ✓ Take 100% Practice Items into account.
- ✓ Correctly apply any bulk billing incentive.
- ✓ An Excel spreadsheet for each Doctor and a master sheet for the Practice.

*We use the OzBiz integration tools in some of our other businesses finding them to be of considerable benefit. We asked OzBiz whether they could achieve the same result by integrating to Best Practice. We are absolutely delighted with the end result which will benefit not only our business, but others running a multiple Doctor Practice. **Heather Gardner - FKG Group of companies***

*I just wanted to let you know how happy we are with the OzBiz system. The importing of information from Best Practice has saved a huge amount of time in data entry and no longer relying on manual data entry has ensured the accuracy of the information imported into our Accounting package. **Stephen Ross Practice Manager Bendigo Medical Centre***

*We began using OzBiz EzyLink at the beginning of the financial year. The first thing we noticed was how efficient and accurate the payment calculator was for processing the Doctor's Funds. This development has made a tedious process a pleasure. The ability to import payments directly from BP to MYOB is great. If there has been a problem it was usually due to human error. OzBiz are fantastic! They have done all of the hard work for us by logging on externally and installing & setting up the system. They have always made themselves available to us when we have had any queries, they have been there every step of the way. For these reasons, I highly recommend the OzBiz EzyLink system. **Angela Crane Riverstone Family Medical Practice.***
